Objection to Notification of Abandonment of 10/030,199
 PCT/DE 98/00694 (100 % German Patent DE 197 11 392 C1, WO 98/41422)
 my letters of 09/17 and 09/22/02

Dear Sirs,

Nov. 07, 02

Please accept my excuse for the error when I mistook 09/101,838 for 10/030,199 on my fax of 09/22/02.

Ref. to my registered letter of 09/17/02 I delivered you the following objection to the above-mentioned Abandonment:

I submitted to USPTO two patent appls. PCT/DE 98/00694 and PCT/DE 97/00715 and the corresponding letters which disclose

- a check of \$ 2000 and*
- the entrance fee of \$ 793 and \$ 837, totalling \$ 1630, far less than \$ 2000.*

See enclosed.

In response to the examination report of CIPO I submit to you

- an amended Appl. in single and double space, references listed therein,
- three pages of Figs., in which Figs. 2, 3 and 5 are designated by the legend "Prior Art" and a reference number 61.1 is placed on Fig. 11 and
- a marked-up version for USPTO and CIPO examination report.

I would appreciate your help in finding errors, particularly, in Claims and explanation therefor. Due to the work for being granted 11 German, seven European, two Canadian Patents and pending patents time and lack of experience at that time were the problems which I encountered. Concerning the phrases my first three German and two European Patent Docs. are less readable in comparison with the remaining ones.

Dr.-Ing. Giok Djien Go

If the basic national fee of \$ 837 for 42 Claims would not cover 31 Claims, among them six are independent claims, please debit the extra fees against my account, listed in the attached credit card information, already submitted to USPTO.

Thank you in advance.

kind regards

Go Giok Djien

NO 10 20, 1999

Registration of PCT/DE 98/09863 (100 % German Patent DE 197 11 392 C1, WO 98/41422)

Dear Sirs,

11/07/98

This week DPA (German Patent Office) has delivered the original German Patent Doc, whose copy (C, T1= translation) and patent doc (F) signed by DPA President Dipl. Ing. Haugg are enclosed for evidence of 100 % German Patent.

The translation (T1) and amendments (LL) of 08/27/98 are incorporated into translation (T2).

Please register my PCT/DE 98/09863 for the purpose of examination and withdraw the fees of \$ 837 from the account or check of \$ 2000 attached to the enclosed registration of PCT/DE 97/00715 of 10/01.

Due to the concern of Mr Marrow, examiner of my PCT/ DE96/02120 to incorporate foreign docs/appls in submittal, I enclose all patent docs/appls of PCT/DE96/01376, PCT/DE96/02120, PCT/DE97/00715, PCT/DE97/01939 and PCT/ DE98/00694 packed in small parcels, however, it the total weight of the large parcel exceeds 2 kg, *limit of the pricey German Parcel Service*, I have to take one out thereof and send it later on.

If you have question, please phone/fax me.
Thank you in advance.

kind regards

Go

PATS

Title : MOTOR VEHICLE STEERING COLUMN AND SEAT BELTS
WITH A PROTECTION DEVICE
Classification : B60R-22/46
Examiner : F. Paquet 219 957 2391

IN ACCORDANCE WITH SUBSECTION 30(2) OF THE PATENT RULES, YOU ARE HEREBY NOTIFIED OF A REQUISITION BY THE EXAMINER. IN ORDER TO AVOID ABANDONMENT UNDER PARAGRAPH 73(1)(A) OF THE PATENT ACT, A WRITTEN REPLY MUST BE RECEIVED WITHIN 4 MONTHS AFTER THE ABOVE DATE.

1.12.52 This application has been examined as originally filed.

The number of claims in this application is 42.

The examiner has identified the following defects in the application:

A search of the prior art has thus far failed to reveal any pertinent references.

Claims 1, 2, 3, 12, 14, 16, 28 and 29 do not comply with Subsection 27(4) of the Patent Act. The inclusion of "and/or" causes a lack of clarity.

Claims 3 to 5, 8, 9, 12, 14 to 16, 20, 22, 23 and 39 to 42 do not comply with Subsection 87(1) of the Patent Rules. Reference to preceding claims must be made by number.

Claims 3 to 5, 7 to 12, 14 to 16, 18, 20, 22, 23, 25, 28, 30 to 34 and 36 to 42 are indefinite and do not comply with Subsection 27(4) of the Patent Act. The wording in the preamble "according to at least one of claims" causes a lack of clarity.

Claim 36 does not comply with Subsection 27(4) of the Patent Act. The inclusion of "if necessary" causes a lack of clarity.

The applicant is requisitioned to delete the reference to the "Continuation-In-Part" found on page 1, line 5. The Canadian Patent Act and Rules have no provisions for the inclusion of this within a Canadian patent application.

2,257,079

- 2 -

In accordance with Subsection 81(2) of the Patent Rules, all documents referred to in the description of an application must be available to the public. References to the documents on page 1, lines 6 to 11 must be deleted or replaced by their corresponding patent or publication numbers.

Under Section 29 of the Patent Rules, applicant is requisitioned to provide an identification of any prior art cited in respect of the corresponding United States and European Patent Office applications and the patent numbers, if granted. Amendment to avoid references cited abroad may expedite the prosecution. If the particulars are not available to the applicant, the reason why must be stated.

The above requisitioned information must be provided regardless of the current status of the foreign applications.

In view of the foregoing defects, the applicant is requisitioned to amend the application in order to comply with the Patent Act and the Patent Rules or to provide arguments as to why the application does comply.
